

# Updated COVID-19 Information

---

## Positive case (symptomatic)

Student must stay home for 5 days and may return when symptoms improve and fever free. If symptoms continue, remain home additional days. Upon return, the student will wear a mask when around others until day 10 is reached from positive diagnosis. A positive test result, parent note or medical note may be used to determine the start date for isolation. A negative test is not required to return to school.
